

The City of Valley Center will now accept any batteries for recycling.

Batteries may be dropped off at the Public Works Building

545 W. Clay from 8 am and 5 pm

All batteries are accepted EXCEPT for single use type batteries. See list below!

TYPES OF BATTERIES WE HELP YOU RECYCLE

Vehicle & Sealed Lead-Acid Batteries

For cars, trucks, boats, powersports, lawn mowers, small back-up power batteries.

Industrial Batteries

Large batteries for forklifts, back-up power systems and other industrial equipment.

Household Batteries

We are able to recycle the following types:

- Rechargeable Nickel-Metal Hydride (NiMH), Nickel Cadmium (NiCd), Lithium-Ion (Li-Ion) and any other rechargeable battery at no cost to you.
- **Single-Use Batteries – Alkaline batteries and any other type of single-use battery ARE NOT ACCEPTED!**

NOTE: Please be careful when storing dead household batteries. They may not be able to power your devices, but they can still produce enough heat to be dangerous when they make contact with something that conducts electricity. Tape the positive and negative ends of the battery to prevent them from touching any metal or other batteries. Tape the positive and negative ends of the battery to prevent them from touching any metal or other batteries.
